

Webinar

Additive Manufacturing in the EU: Report on the European Demonstration 3D Printing Industry

Thursday, 3 June 2021

10:00-12:00 CET

This webinar will present the preliminary results of the study on the additive manufacturing landscape in the EU undertaken by IDEA Consult. The presentation will include an overview of 3D printing demonstration services in the EU and an analysis of the supply and demand conditions for these services by SMEs.
