Agenda

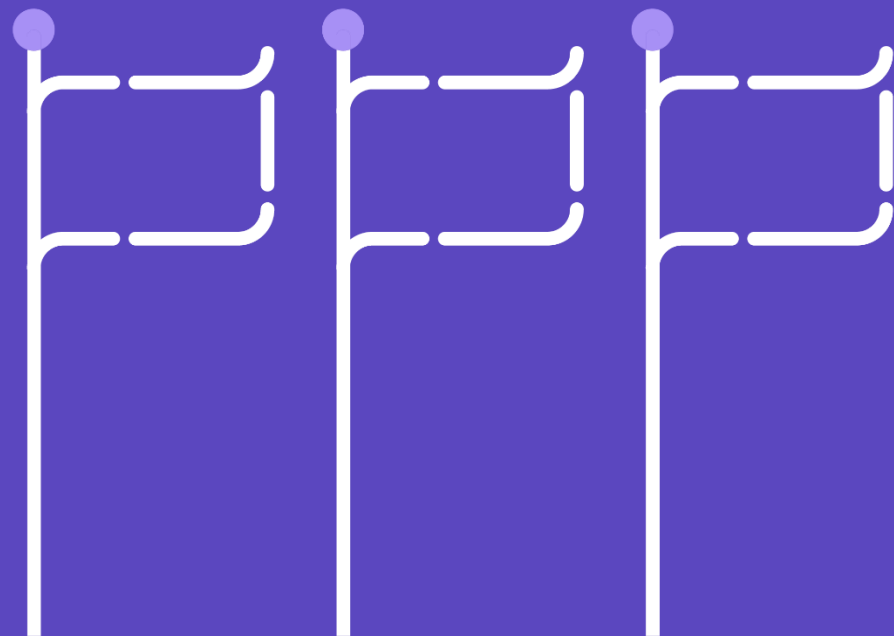

10:00 – 10.05	Welcome by Moderator Melissa Campagno, VI Smart Health Pilot Co-lead
10:05 – 10:20	Keynote Speech Jerome De Barros, Policy Officer, Digital Health, European Reference Networks Unit, DG SANTE
10:20 – 10:35	Introduction – Science Meets Regions Stijn Verleyen, Policy Officer, European Commission – Joint Research Centre
10:35 -10:45	The Vanguard Initiative Innovation Networking Initiative Eleonora Nadin, Vanguard Initiative Information Officer
10:44 – 11:00	VI Smart Health Pilot Melissa Campagno, VI Smart Health Pilot Co-lead
11.00 – 11.15	SAPHIRe (introduction) - roadmap presentation and main message Jolien Roovers, Flanders
11:15 – 12:45	Guided discussion on questions on page 4*
12:45 – 13:00	Wrap-up, AOBs

Launch event – Vanguard Initiative

03 March 2022

Science Meets Regions:
background and key
objectives

Stijn Verleyen, JRC

European
Commission

SMR: antecedents

- 2015: Science meets Parliaments in EP – annual high level event
- 2016-2017: *Science meets Regions*
- 2018-2020: Pilot Project adopted by EP and implemented by JRC
- December 2020: EP adopts Preparatory Action
- 2021-2023: *Science meets Regions 2.0*

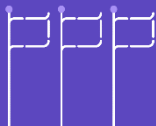

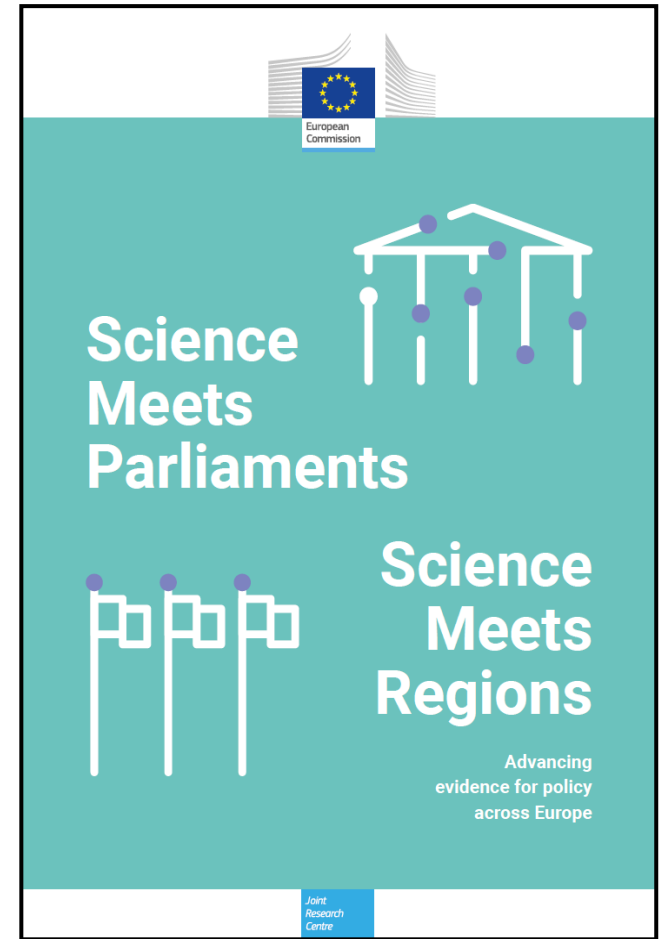

Final report of the Pilot Phase

1. descriptive part

2. analytical section: impact along the following dimensions:

- Policy change
- Citizen engagement
- Stakeholder cooperation
- Bringing evidence across

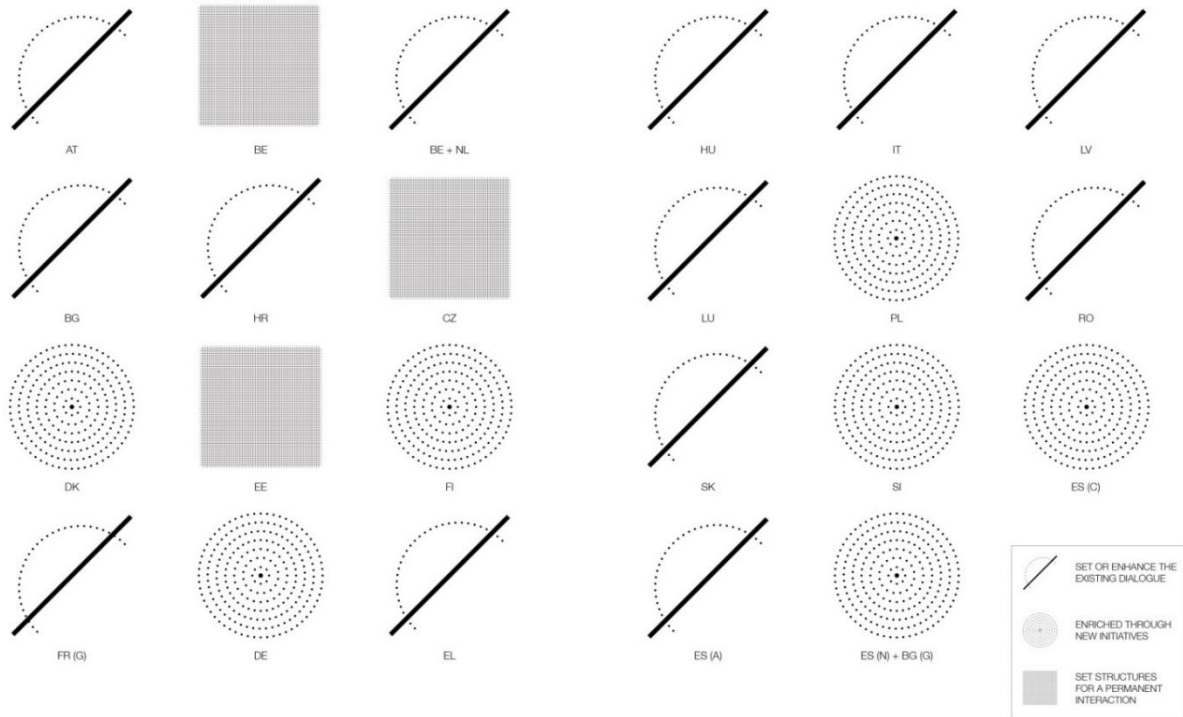

3. 'Beyond the pilot phase' : how to bring about structural change?

Example: bringing evidence across

Bridging the Science-Policy gap:

- enhancing existing collaborations
- starting point for
- new initiatives and cooperation
- creating structural interaction between scientist and policy makers

Preparatory Action 2021-2023

Key recommendations from PP:

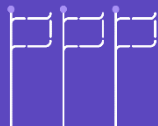

1. Stronger link with **structural processes and local knowledge “ecosystems”**
2. **Explore synergies** with other EU instruments (regional funds, RTD/KEP, ...)
3. Build a **community of practice** on EIPM at local and regional level

Preparatory Action: Key Components

Overall budget: 1.5 million EUR

1. (single beneficiary) organisation of **innovation camps and events on policy issues** connected to the **EC priorities** – must be embedded in wider process, avoid ad hoc and one off
2. **Interregional networks** involving at least 3 partners from 2 MS
3. **Community of practice** on EIPM at local and regional level (skills training, portal, mapping study)

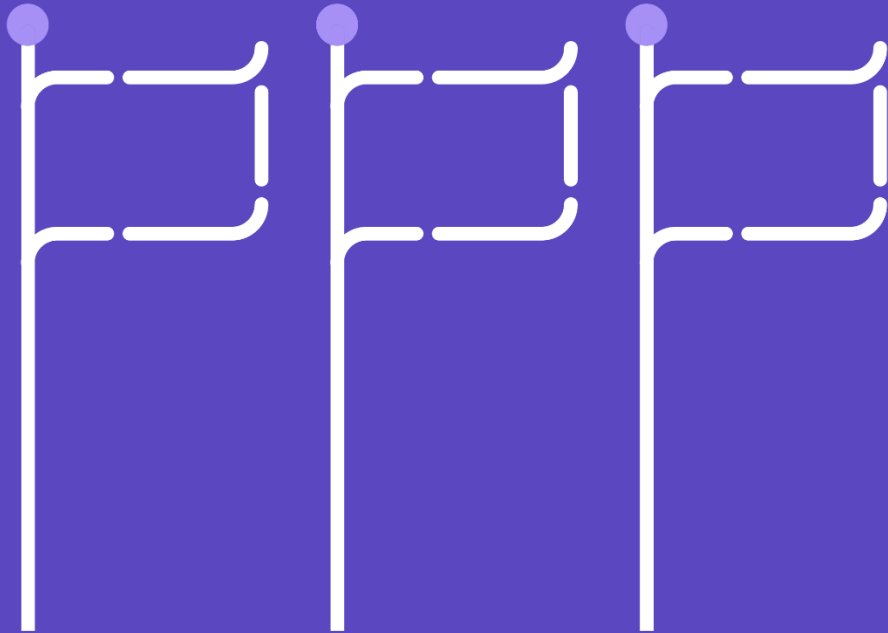

Thank you!

Vanguard Initiative Innovation Networking Initiative - Accelerating Digital Transition in Health -

OBJECTIVES:

- Developing solutions together with researchers and social actors to issues defined by the administration in the field of Smart Health.
- Engaging stakeholders within a European value chain network of digitalized healthcare services and products.
- Outlining collaboration methods and know-how transfer techniques.
- Facilitating cooperation between local authorities and the interested parties at the regional level, but also the collaboration between regional ecosystems at EU level.

2022

#EUSci4Regio

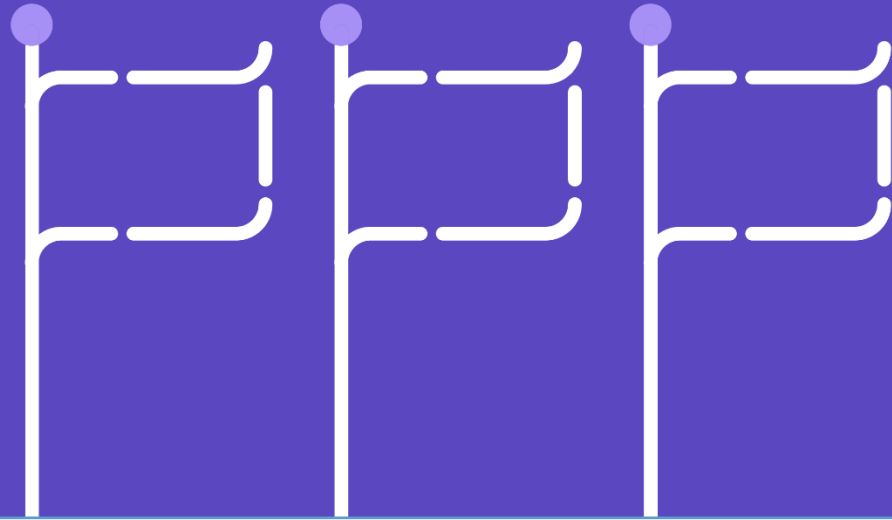

Overall Concept

- The events are organised in the framework of the VI Smart Health Pilot.
- Through the VI methodology 'learn, connect, demonstrate, commercialise', the pilot facilitates the mobilisation of the *quadruple helix* in the *Innovation Camps*.
- The engagement and discussion will kick-start on the basis of SAPHIRE- a Consortium for Securing the Adoption of Personalised Health in Regions.

Vanguard Initiative Smart Health Pilot Project

Melissa Campagno, VI Smart Health Pilot
Co-lead

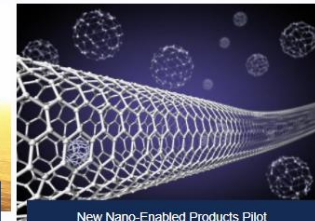

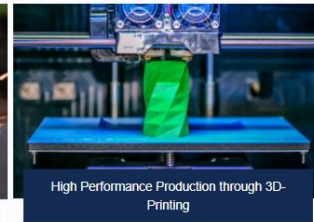

10:45 – 11:00

European
Commission

Smart Health Pilot – Context and background

- Rooted in the S3P4PM Partnership-Smart Specialisation Strategies (S3) Modernisation partnership (MedTech and Personalised Medicine)
- 7th and younger pilot of Vanguard Initiative
- Launched in April 2021
- Three co-leading regions : Flanders, East Netherlands, and South Netherlands
- 14 regions involved

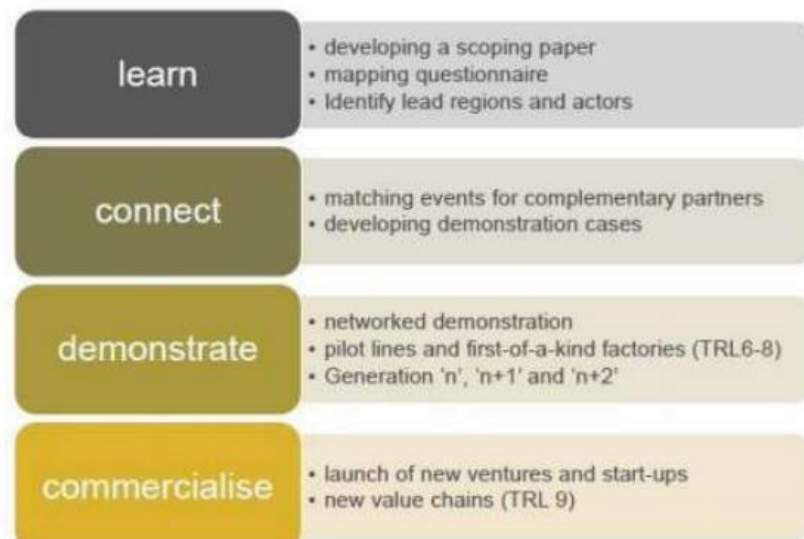

<https://www.s3vanguardinitiative.eu/pilots/our-pilots>

Smart Health Pilot – Objectives

Transform the connected European value chains on Personalised Medicine (PM) and smart health, by combining biomedical, technological and data-driven expertise.

Figure 2: Vanguard Initiative methodology

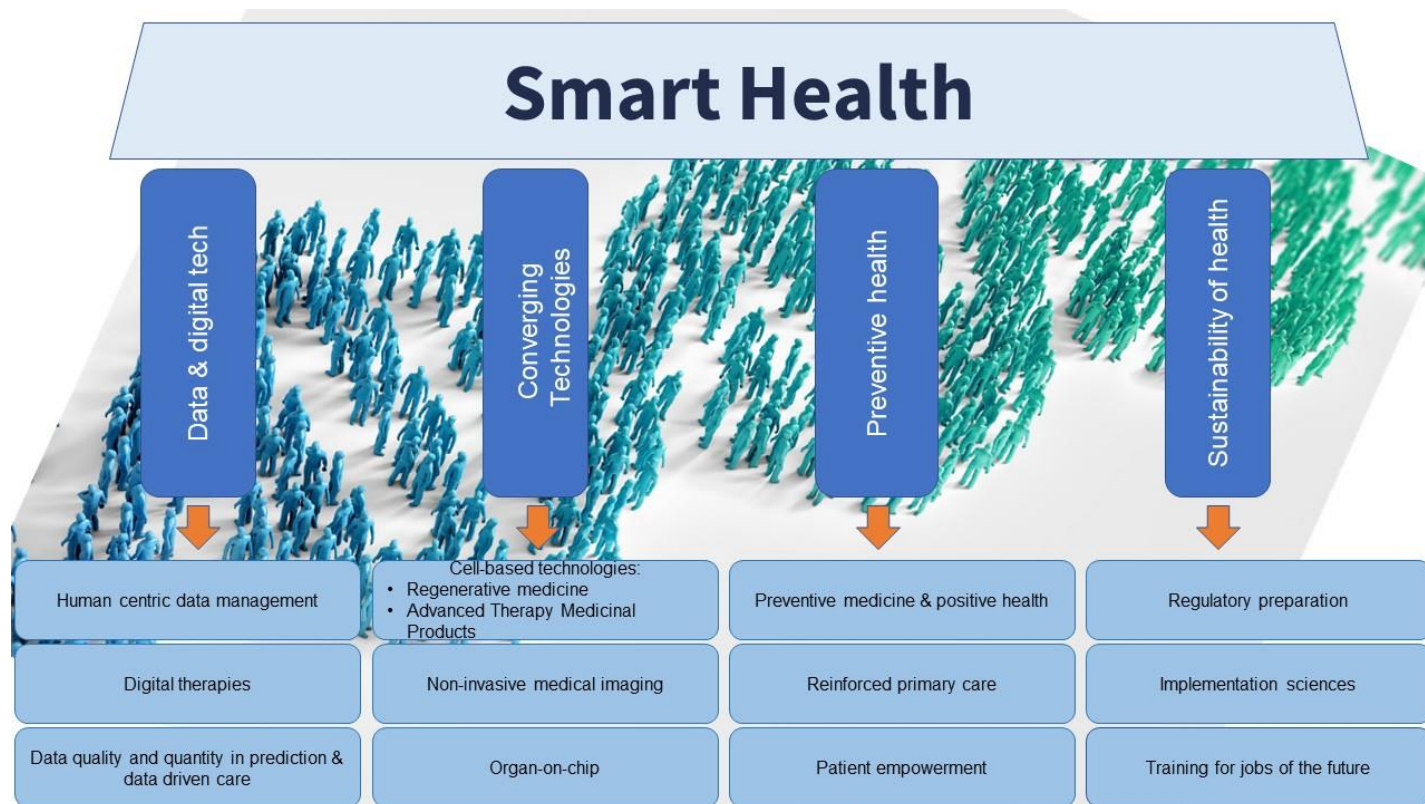

Source: Vanguard website

Smart Health Pilot – Key achievements in 2021

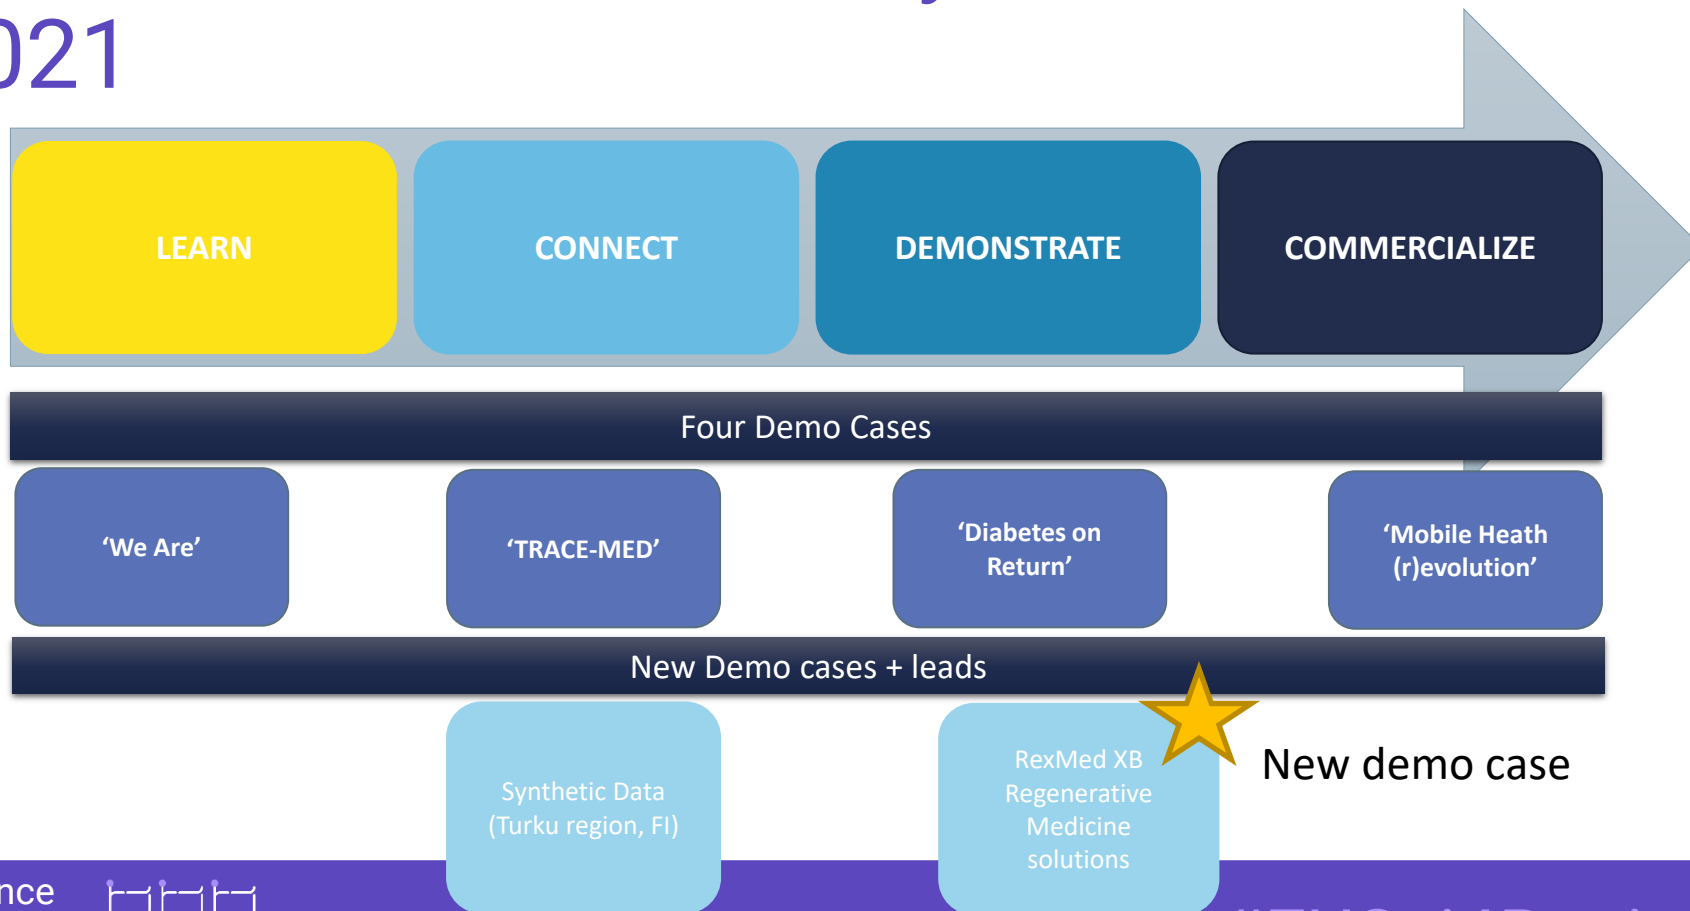

- Applying the VI methodology
- Connecting partner regions who already established solid ecosystems combining biomedical, technological, and data-driven experience
- Developing a ‘scoping note for Smart Health’ that will provide a framework for developing the pilot
- Identifying and supporting demo cases in their development

Smart Health Pilot – Key achievements in 2021

Scoping note

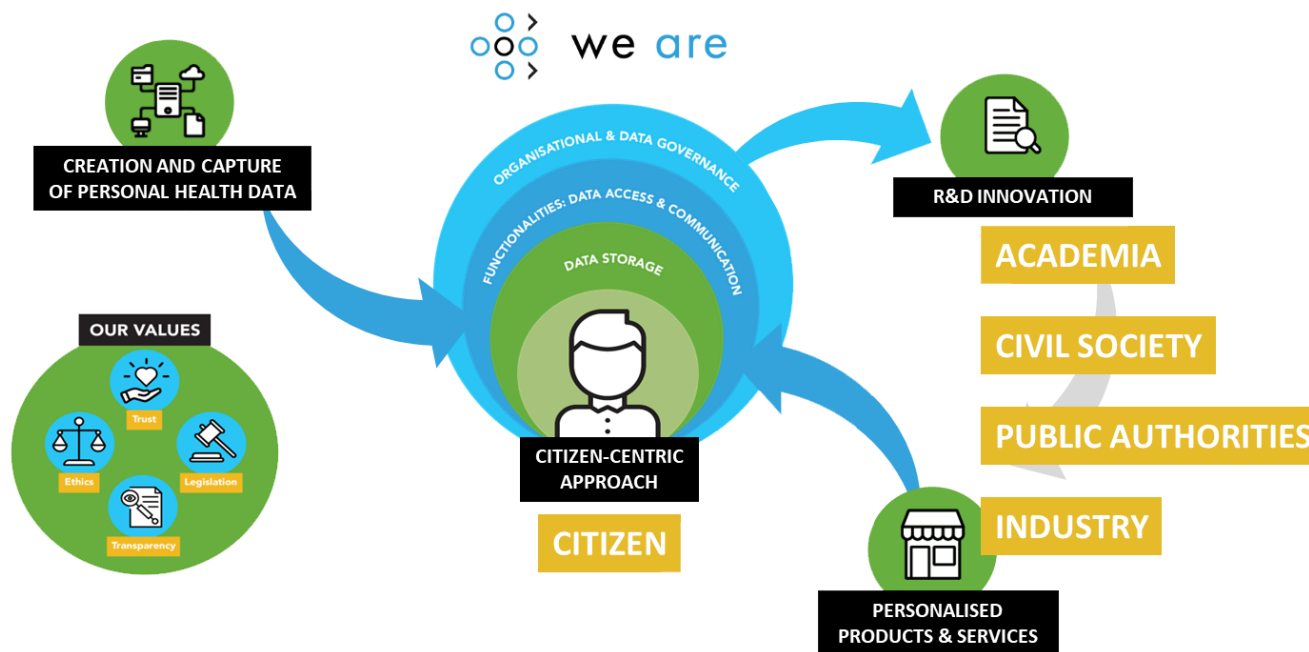

Smart Health Pilot – Key achievements in 2021

Smart Health Pilot – We Are demo case

A personal data management platform, We Are

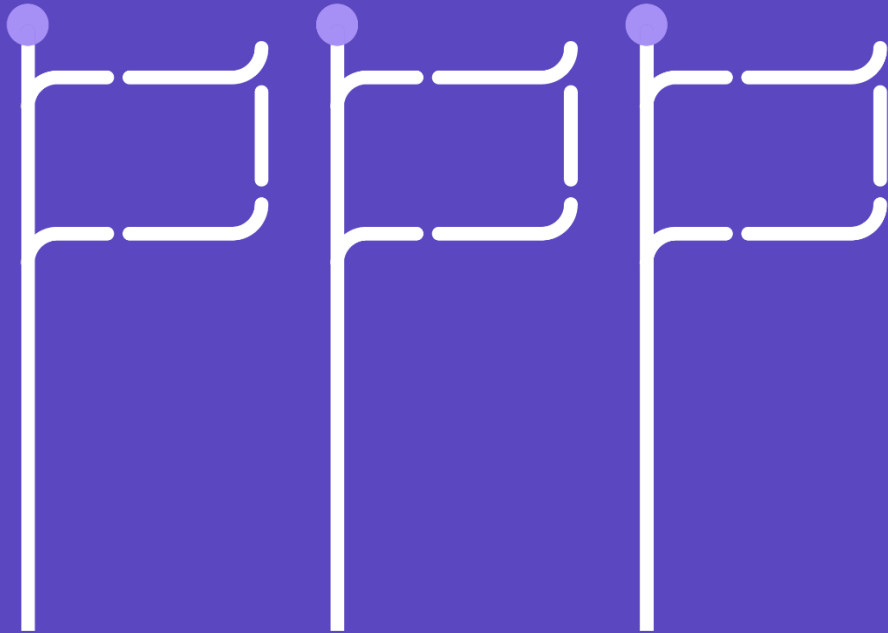

Smart Health Pilot – Key activities for 2022

- Apply for I3 funding and keep demo case leaders informed about relevant funding opportunities (HE, Interreg, COSME, JCI, S3)
- Update and broadening the scoping note
- Activate additional regions in the pilot
- Support the developments of the four demo cases as well as relevant collaborations and synergies with other VI Pilots (3D printing)
- Assess/ select new project and demo case ideas using a systematic approach (criteria)
- Communicate and promote about the Smart Health Pilot with impact
- Organise the Smart Health Pilot Project Event on 26 April 2020 back to back with the SAPHIRE's final event
